---

### CAREER SUMMARY

Successful professional, experienced in growth and development of small teams through daily tracking and goal-setting of team members seeking position in Software Development. Strong ability to work and communicate professionally and efficiently across cultures and backgrounds. Excellent problem solver, quickly and dynamically solving technical issues.

### SKILLS

**Languages:** Javascript, Python, SQL, HTML, CSS

**Frameworks/Tools:** React, Redux, Express, Flask, Sequelize, SQLAlchemy, PostgreSQL, AWS, Git

**Key Skills:** Pair Programming, Test-Driven Development (TDD), Object-Oriented Programming (OOP), Scrum Methodologies

### PROJECTS

**levelUp** (React / Redux / Flask / SQLAlchemy / PostgreSQL)

[live](#) | [github](#)

*Personal and team-oriented task-management application*

- Utilized Redux state to provide a seamless experience when interacting with lists and tasks
- Minimized database connections by querying user-related data on sign-up/log-in
- Single-page application that seamlessly updates according to user interaction

**EpicEats** (React / Redux / Flask / SQLAlchemy / PostgreSQL)

[live](#) | [github](#)

*Food-ordering/food-delivery app cloned from UberEats with other styling inspiration taken from DoorDash*

- Pioneered cart functionality with React and Redux to dynamically render information
- Tackled and solved a large percentage of debugging and technical issues our team found in development
- Assisted in development and implementation of data-flow for the a group to follow in development

**airBee'N'Bee** (React / Redux / Sequelize / SQLite3 / PostgreSQL)

[live](#) | [github](#)

*Vacation rental application cloned from Airbnb*

- Constructed a Node.js server with RESTful endpoints to allow easy abstracted usage for frontend asynchronous requests
- Implemented user privacy and autonomy through frontend and backend authentication measures and React Router to ensure users only have access and can make changes to their own spots and reviews
- Connected Node backend to AWS S3 for media storage and organization while maintaining content security with AWS IAM.

### EXPERIENCE

**Personal Training Manager** - *Fitness International*

April, 2022 - February, 2023

- Managed the Personal Training department of existing and brand new health clubs
- Grew the Personal Training department and its profits by 30% at existing clubs
- Aided in interviewing, hiring, onboarding and setting team culture and club culture at a new club

### EDUCATION

**App Academy**

Spring 2023

- Full-stack web development bootcamp prioritizing software engineering best practices
- Covered topics such as data structures and algorithms, object-oriented programming (OOP), test-driven development (TDD), etc

**Trinity International University**

December 2018

- Studied Communications with an emphasis in Business and Organizational Communication
- Enhanced personal and organization communication skills
- Practiced public speaking and presentation skills through delivery over dozens of speeches and presentations
